

NIDHI PARTHASARATHY

(408) 800-2714 · nidhi.parthasarathy@gmail.com · [linkedin.com/in/nidhi-parthasarathy](https://www.linkedin.com/in/nidhi-parthasarathy)

UW CS undergraduate student with varied project & research experience in AI/ML with diverse projects in AI. Coding, web UI, app development, AI & data science skills. Strong teamwork & communication. Hardworking, responsible, enthusiastic.

EDUCATION & COURSEWORK

Bachelor of Science, Computer Science, University of Washington, Dean's Scholar, Expected Grad Date: June 2028

Lynbrook High School (LHS), San Jose, Class of 2025, school valedictorian, unweighted GPA: 4.0/4.0, SAT: 1580/1600 (Math: 800; Reading: 780)

Representative college coursework: Web programming, System & Software Tools, Data Science, AP CS, AP Stats, MultiVar Calc, AP Calc BC, AP Physics, AP Biology, Psychology, AP Language, AI-for-social-good Coursera certification

Technical Skills: Python, Java, JavaScript, node.js, react.js, Lexical, HTML/CSS, Data science + AI/ML (numpy, pandas, matplotlib, tensorflow, openAI, Claude, Gemini), Github, Pinnacle studio, DaVinci Resolve, iMovie, WeVideo, Canva, WordPress, Wix, Weebly, VexStudioCode, Android Studio

WORK EXPERIENCE

Stanford Institute of Human-Centered AI (HAI), Palo Alto, CA | **Research Intern, Summer 2024-current**

- Research under Prof. Subramonyam on generating situated scaffolds from AI-simulated expertise for open-ended expert learning. Developed novel trace extraction pipelines + domain-specific language, and implemented sophisticated front-end and backend with 1000s of lines of code.
- Research** with Prof. Subramonyam & Richard Calton on AI+education+journalism for civic engagement/empowerment. Literature survey of 30+ books/research papers. Built a novel system using system1/system2 thinking in AI-tutor for improved pedagogy. Planned pilot in SF schools.

MIT BWSI Medilytics, Cambridge MA | **Research Intern, Spring 2022, Spring/Summer 2023**

- 2023: 5 month online training + intense four week summer program. ML for several real-world clinical scenarios: hypothyroidism, sleep classification, mammogram analysis. Capstone **project** on predicting stem cell differentiation. Arxiv **paper**.
- 2022: *Many Interesting Things for Aspiring Engineers*: MIT's entry-level course adapted for high-schoolers: 8-week program. Alsteria: capstone **project** on ML/AI to analyze spread of Covid. **Presented** at JHU Global Health Leadership Conference, 2022. **Five-blog series**.

ZeroUI, San Jose, CA | **Research Intern, Summer/Fall 2022, Summer 2023**

- Conversational AI tutor platform to learn STEM/CS in 3D sandboxes; **Presented** at Girl-Powered robotics workshop, 2023
- Designed/coded virtual simulations for arrhythmias/**cell** transport; designed biology "computational STEM" **module** for Zdemy e-learning platform. Represented ZeroUI in demos/presentations; Pilot launched with underprivileged/title-1 schools.

Stanford AIMI & AI4All, Palo Alto, CA | **Research Intern, Summer 2022, Fall 2022 – Spring 2023**

- 2023: First high-school sophomore invited by program for full year research internship. Worked on a new ML educational outreach program for underserved communities. Developed curriculum & taught material, with research. AIMI symposium, moderated AIMI **webinars**.
- 2022: Immersive 3-week program on AI/ML. 17 blog series **published** on Medium, republished on Stanford HAI **blog**. Capstone project: ML to analyze x-ray images to detect diseases. **Published** at NextGen research journal, 2024.

ADDITIONAL PROJECTS & EXPERIENCE

AI-TA (AI-teaching-assistant) | Independent research & social entrepreneurship, Summer 2023-current

Developed **web-app** to address AI inequity/bias. AI to teach AI: Fair, Fun, Personal: novel AI-personalized content, AI "study buddy." Pilot at Lynbrook HS + launched Udemy **course**. Congressional app certificate. Entrepreneurial grant from BEEP.

Data science & visualization research (kaggle, arxiv): One of the participants in a community collaboration with researchers in UWisc-Mad, Cornell, IIT, Google to analyze 50 years of ISCA conference; IEEE **paper**.

Other conferences & training: • Krause Center of Innovation AI/Edu • Stanford Deliberative Democracy Lab (23): AI in Education workshop • Stanford ASES launchpad (23): 2-day entrepreneurship workshop + EdTech ideathon • Johns Hopkins Global Health Leadership Conference (21)

Other projects: • ML for emotion detection • App development: Bi-li-ngo (Bilingual Bingo game); Customized Wordle; EAYD (Essentials-at-your-doorstep for seniors); SpillOut (stress reduction); PureCloud (pollution tracking) • Robotics: VEX robotics, First Lego League • Published 20+ blogs at <https://nidhiparthasarathy.medium.com> • aiEDU **blog**, Stanford HAI **blog**, Alsteria **blog**

EXTRA-CURRICULAR & COMMUNITY SERVICE

Dance: Bharatanatyam Indian Classical Dance & Bollywood | Solo & Group Productions, Leadership

- 11+ years training. ABGMV certification. **Arangetram** (solo 3-hour dance) raised \$2000+ for charity. 4 productions & many performances
- Bollywood: LHS Taara team co-captain: choreographed/led team in multiple dance shows; solo & group awards

Community service activities

- VTSeva: Executive board youth leader; community volunteering events: park/creek cleaning, senior outreach, sandwich donations, cultural outreach, fundraising for RaGa flagship event; infographic/video editing. Collected \$20000+ for tribal & blind children education. Service medal.
- Robotics for All:** lead instructor: Python, scratch, code.org for middle/elementary schoolers • **ProjectCare:** Website lead, social media lead, volunteer: raised funds for ~30 handwashing stations in India • **Turn The Bus:** website development & hackathon volunteer

AWARDS & RECOGNITIONS

- ♦ Co-author, IEEE Micro **paper**, "Fifty years of ISCA: A data-driven retrospective"
- ♦ **Keynote**, Google Girl-Powered ("Build your own 3D games using AI tutor")
- ♦ Panelist, AI & education leadership summit, Krause center for innovation
- ♦ 3-time NCWIT Aspirations in Computing National Winner: top 10% (21, 22, 23)
- ♦ 3-time Presidential Service Gold Medallist (2021, 2022, 2023)
- ♦ Winner, BEEP Entrepreneurship Funding (2023)
- ♦ MIT BWSI Award (2023), InSpritAI Ambassador (21,22)
- ♦ National Merit Commended Scholar (2024)
- ♦ USA Computing Olympiad Silver (2022)
- ♦ Many dance awards: Dance USA 1st regional winner
